Sir

My Ensigne hath lately received a Letter containing directions to accomodate me wth soe guilders ~~from~~ by Capt: Killigrews order. and upon his next lomming to the Hagle they Shuld be delivered to him which makes mee very sensible of the prosecution of your most noble favours to mee, by tendering such a sume of money for releefe of my late losses. Sir, I have accepted of this Sume. to make even part of some reckonings for which I am indebted by meanes of this casualty. I am something confident it will not be long ere I have a supply from my Mother, out of which I shall not faile to make repaymeant to you, not out of doubt but that you have bin answerable for this Sume, which I have made use of. Sir I beseech you make a favourable conjecture, and beleeve I did not at first embrace what now I have accepted, to rubb of some small small debts, which oft growe more hurtfull then greater, if they should not in time bee taken of, for it was far from me to esteeme your letter (which you sent mee) a complemeant, upon which I have presumed you will pardon,

Sir

Your faithfull and
Most obedient Servant.
