

R. 15. Aug. 43.
Jr

I have sent you how inclosed the words
of this of your books, with review by persons
wh came from London Friday night last. but
not by letters for the packet this week
was lost and carried to the parliament. and so
no letters are yet come. I am not able
to assure you much of all particulars but
think they may be true. and am inclin'd
and through ^{no doubt it} to be true. I intend to
run no hazard by undertaking any
thing for or contrary thereto. If you
make with any reports of the Quakers
being sick of the new disease at Oxford
be pleas'd to understand it an invention

of the round heades for having examined the
passengers thereupon finde it to be by
virtue of the capitall but not otherwise.
therefore be pleased to certifye his
highnesse therewith only to prevent
of such reports may not begett any
feares. and what I subscribe. if it
might not be otherwise spoken of here
to his highnesse. for otherwise it may
happen from any writing. such
mistakes may grow. and gett some
dispute not otherwise might not
be allowed any credit. Baron
Dona. is by those that came within
15 dayes from oxford. reported to
be slayne from the walls of

nottingham as was formerly reported
and from no person have I heard of
contradiction. but confirmed by
all letters and passengers of vessels
by come over. and from some that
have been over nottingham
at the same time. be pleased to
present my most humble services
and obedience to his highness
and let me by your favour be
understood by him to be a most
entire and faithful servant.
and as I may be allowed an op-
portunity. It will be effectually

manifested, by y^e Doctor as well as

Y^e most humble and
most affectionate servant
