Rynbreuk in alder fl. v Ed. Gants ootmoedigen
den 31. mays 1670 ^{merdry} ^{W. Wynboren}

our respects are more sincerely expressed
below, and this is, indeed, reluctantly done,
as it gives us pain to do so.
I will not say more than is necessary,
but I will say this, our late friend was
a man of much energy & determination,
and his influence & tact, &
the friends we had at his disposal
are still in existence, & ready
to exert themselves in our behalf.
The friends we had at his disposal
are still in existence, & ready
to exert themselves in our behalf.
The friends we had at his disposal
are still in existence, & ready
to exert themselves in our behalf.
The friends we had at his disposal
are still in existence, & ready
to exert themselves in our behalf.
