Most honored and highly Esteemed Sir
I have understood By Mons: Gravius of your good
Recovery, which I wish heartely God will still preserve
in long continuation of good health and happiness, I have
also understood from Gravius, that the last Rentmeister
hath not as yet performed his promises, in the Discharging
and paying of the 200 R^d. I am perswaded hee would
easily suspende wth his word ^{and} with the p^{an}ch of his Honor, ^{if}
if hee could, But hee knowing no other wayes but that
have Received such long since from your hands, I doubt
not but hee will be willing to give you Satisfaction, I would
be very welcome to mee, for heere is no hopes of Rec^y
eiving any, that the old English song may be fitly song,

willingly assiste^d M: Gravius with 50. R^d, being Distrib^u
ted of them in the ^{haga}, but now I shall have use of it my selfe
and hee being now near his friends, may Questionlesse
finde Assistants from them. It is thought for certain that
the Prince Elector will Remove before winter out of
these parts, and towards betlyn, and perhaps further
into Preussia, Being his presence is much Required
in those parts, because of the Death of the Polland King,
I for my part am loth to Remove so far from the same
towards winter speckely, I Question ^{not} but his highness will
with ease obtaine may staying I leere, It may be desired
only for this winter, my total Discharge may be the
better wrought in the future, without the Disfavou^r
