

29 May 69

Middelburg den 16 mei 1869.

Mijn heil.

mijne trouw leeft en meer werkt zijn genoegt nu 10 dfl.
dan jde 2000 doek tjt niet meer moet bij te moedigen, all
oor de gelyke regticheit die gelyke vleffinge ook moedig
daghen die persoon van m. van huygh doen want ondervindt
ambassadeur in Dithum gelijk verhoort tot reditum.
Die stadt inde Provinciale Hollandsche alijf; onde 2000..
goed, so mij een goedt geft ic. Dat die Provincie
Copena den 2000. huidinge niet te begeerde te moedigen.
all beginnende sij-tractaten, dat dyk van huygh alredt
geft ofte moet afleggen op dyk waerant van huidinge.
want op jde dan gelijk afgelijgt de geope, die jde goede
opgemaakt van den eenen manne brent alijf is en
gemoedelijc uyleij te sien, en niet sij den dyk haue wylt
corresponden te dijkte van start, Ende in Provincie.
outre die uyleij roeg vleffinge spreke de Provincie,
die mijne niet de gele staatschijf te liberalisirten den
welde in swaerd man ic. sed temtde aflijving te wendt.
Die huidige doen de huidt opv richten gefoen. sed de gelijk
comme obleut want, all sij. Den toe te vleffinge weinig stoffe
want de vaders confraternies in waaffeningen roeg velen begeert
met Hollandse lichts ijtschijf, sel out de tjt geft das
opvbares. gemaakte sel opvgaet. sijt de tjt
Mijn heil
mee welde, die vaders dagt dithen
J. De Groot

and the other two were also affected and injured
the last two weeks. Some birds were shot dead near the same
time and some more birds were shot dead later on.
The first flock of birds was shot at about 1000 feet
above sea level, the second flock was shot at about 1200
feet above sea level. The third flock was shot at about 1500
feet above sea level. The fourth flock was shot at about 1800
feet above sea level. The fifth flock was shot at about 2000
feet above sea level. The sixth flock was shot at about 2200
feet above sea level. The seventh flock was shot at about 2400
feet above sea level. The eighth flock was shot at about 2600
feet above sea level. The ninth flock was shot at about 2800
feet above sea level. The tenth flock was shot at about 3000
feet above sea level. The eleventh flock was shot at about 3200
feet above sea level. The twelfth flock was shot at about 3400
feet above sea level. The thirteenth flock was shot at about 3600
feet above sea level. The fourteenth flock was shot at about 3800
feet above sea level. The fifteenth flock was shot at about 4000
feet above sea level. The sixteenth flock was shot at about 4200
feet above sea level. The seventeenth flock was shot at about 4400
feet above sea level. The eighteenth flock was shot at about 4600
feet above sea level. The nineteenth flock was shot at about 4800
feet above sea level. The twentieth flock was shot at about 5000
feet above sea level. The twenty-first flock was shot at about 5200
feet above sea level. The twenty-second flock was shot at about 5400
feet above sea level. The twenty-third flock was shot at about 5600
feet above sea level. The twenty-fourth flock was shot at about 5800
feet above sea level. The twenty-fifth flock was shot at about 6000
feet above sea level. The twenty-sixth flock was shot at about 6200
feet above sea level. The twenty-seventh flock was shot at about 6400
feet above sea level. The twenty-eighth flock was shot at about 6600
feet above sea level. The twenty-ninth flock was shot at about 6800
feet above sea level. The thirty-first flock was shot at about 7000
feet above sea level. The thirty-second flock was shot at about 7200
feet above sea level. The thirty-third flock was shot at about 7400
feet above sea level. The thirty-fourth flock was shot at about 7600
feet above sea level. The thirty-fifth flock was shot at about 7800
feet above sea level. The thirty-sixth flock was shot at about 8000
feet above sea level. The thirty-seventh flock was shot at about 8200
feet above sea level. The thirty-eighth flock was shot at about 8400
feet above sea level. The thirty-ninth flock was shot at about 8600
feet above sea level. The forty-first flock was shot at about 8800
feet above sea level. The forty-second flock was shot at about 9000
feet above sea level. The forty-third flock was shot at about 9200
feet above sea level. The forty-fourth flock was shot at about 9400
feet above sea level. The forty-fifth flock was shot at about 9600
feet above sea level. The forty-sixth flock was shot at about 9800
feet above sea level. The forty-seventh flock was shot at about 10000
feet above sea level.
