

Sir

This war is ended with more  
loss to me then any other body for  
I fear the Prince is displeas'd with  
me for the carrying away of those  
Officers that did it without my know-  
ledge, and I have now my Comnesse so  
much renewed, that I can not come  
to cleare my selfe, as soon as the Cath-  
lics restore me to my strength I shall  
employ it in his Highs service if  
he please to let me returne into the  
same place of his favour that I thought  
my selfe happy in before, being not  
at all with a determination to any decli-

nation in his His good opinion no  
more then I was worthy of comming  
into it, and I set to great a value  
upon his favour and my selfe to  
quit any pretensions to it when I see  
the same offer'd to his service than  
I otherwise had, and if you will doe  
me a particular favour to let me  
know what my place is there, and to  
be assur'd that I will never be His displeasur  
of me I am

Yrs

Your most affectionate  
and most humble servant  
George Corne
